REMARKS

Claims 1-29 are pending in this Application. Claims 1, 5, 16, and 24-29 are currently amended herein. Claim 23 is canceled. Claim 5 has been amended to correct a syntax mistake. Claim 16 has been amended to correct antecedent basis. The dependency of claims 24-27 are amended to depend on claim 1 as these claims originally depended on the now canceled claim 23. Support for these amendments can be found in at least paragraphs [00279]-[00282] of the specification as filed. Claims 30-79 have been added by this Response. Claims 30-79 correspond to the previously pending dependent claims that depend from method claim 1. Accordingly, claims 1-79 will be pending upon entry of this response. Based on the above Amendments and the following Remarks, Applicant respectfully requests withdrawal of all outstanding rejections.

Allowable Subject Matter

Claims 12, 14-15, and 20-27 are objected to as being dependent upon a rejected base claim but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims (Office action at page 2). Applicant thanks Examiner Duong for the indication of allowable subject matter of claim 23.

Claim Rejections – 35 USC § 103

Claims 1-10, 13, and 16-19 stand rejected under 35 U.S.C. 103 for alleged unpatentability over Ooba (US 2011/0078573 A1) in view of Lu (US 2015/0026595 A1).

In the interest of advancing prosecution and without acquiescing to these rejections, claim 1 is amended herein to incorporate features of the allowable subject matter of claim 23.

The combination of Ooba and Lu fail to teach, disclose, or suggest the recitations of claim 1 as currently amended herein. Indeed, neither reference—alone or in combination—discloses "displaying respective content on the first display; and after displaying the respective content on the first display, receiving a request to share the respective content with a user of a second electronic device; in response to receiving the request to share the respective content: initiating display of a video conference user interface of a video conference on the first display

and initiating sharing of the respective content with the user of the second electronic device; and *displaying the respective content on a second display in communication with the first electronic device*." (Emphasis added.)

Accordingly, at least for the reasons given above, claim 1 as currently amended, and each claim depending therefrom, is patentable over Ooba in view of Lu. As such, Applicant respectfully requests withdrawal of these rejections.

In addition, claims 28 and 29 are currently amended herein to reflect the amendments to method claim 1, and are patentable for at least similar reasons as presented above with respect to claim 1.

CONCLUSION

By responding in the foregoing remarks only to particular positions asserted by the Examiner, Applicant does not necessarily acquiesce in other positions that have not been explicitly addressed. In addition, Applicant's arguments for the patentability of a claim should not be understood as implying that no other reasons for the patentability of that claim exist.

In view of the above, each of the presently pending claims in this application is believed to be in immediate condition for allowance. Accordingly, the Examiner is respectfully requested to withdraw the outstanding rejection of the claims and to pass this application to issue. If it is determined that a telephone conference would expedite the prosecution of this application, the Examiner is invited to telephone the undersigned at the number given below.

In the event the U.S. Patent and Trademark Office determines that an extension and/or other relief is required, Applicant petitions for any required relief including extensions of time and authorizes the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to Deposit Account No. **602925** referencing Docket No. **106842163101 (P35542USC1)**. However, the Commissioner is not authorized to charge the cost of the issue fee to the Deposit Account.
